

Dear Appraiser:

We are currently seeking qualified individuals to join our appraiser panel to assist in managing our increased workload.

Vandalay Appraisals began in Moorpark, CA over 10 years ago. We started as a two appraiser company in Ventura County and have grown steadily ever since. As our business has grown, we have prided ourselves on our ability maintain a high level of service and quality that is often lost in larger operations. As a result of recent legislation and formalized industry definitions, we are now considered a statewide AMC.

As the ever-changing rules and regulations alter the face of the mortgage and appraisal industry, Vandalay has worked hard to stay current and still remain personal with their appraisers. Our business model allows appraisers to manage their orders, yet acts as an intermediary with the customer allowing you to focus on the appraisal and not other time consuming tasks. We offer an in house quality review department to assist with report completion and to share our experience with lender specific requirements. We also offer occasional training opportunities for appraisers and group discounts on continuing education.

If you are interested in joining our panel of appraisers or would like more information, please fax or email this completed page to 1-800-961-7745 or wendors@vandalayappraisal.com along with an updated version of your license, resume and E and O.
